Important indications

WARNING!

The food scoop can be damaged by sharp acids by sharp acids and food containing salt.

When using the food scoop, always make sure that acid and salt-containing products do not come into contact with the food scoop.

Remember that acids, bases and/or metal salts in combination with water and/or atmospheric oxygen may dissolve pure aluminium, creating aluminium(III) compounds.

1. Clean the food scoop under warm running water, with the use of a soft cloth or a sponge. Use mild cleaning agent if required.
2. Rinse the food scoop with clean water.
3. Then dry thoroughly.
